

GBS Summer Reading & Math

We are offering resources to support at-home reading and math practice over the summer. These resources are **optional**, and we encourage families to pick and choose activities that are suited to their child's needs and interests.

The reading and math bingo challenges are fun ways to engage students and track points toward a collective school goal and incentive. Students voted, and the results revealed that students want to see their principals go to the dunk tank. If GBS students collectively earn a total of 10,000 bingo points this summer, the GBS principals will go to the dunk tank in September! Every point counts.
